### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: the instant invention replaces the known inspection of elements of a belt for use in a continuously variable transmission for automobiles. The essential difference from the prior art is that the instant invention sorts out defect-free workpieces by inserting the workpieces into a passage with a predetermined width, comparing images to a reference image, and applying a gauge with a shape complementary to a required shape for a functional portion of the workpieces as depicted in Figure 1. Therefore, the instant invention sorts out workpieces successively from most to less frequent types of defects, thereby efficiently sorting out defect-free elements. These features in combination with the other elements of the claims are not disclosed or suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
